

FAY SCHOOL

August 29, 2017

Dear Fay Parents,

I'm writing to share news of a troubling event that you may have seen in the news.

Joshua Hubert was hired in early July in our technology department as a systems support analyst. Mr. Hubert went through the same vetting process Fay School follows for all prospective employees. This process includes fingerprinting, CORI and SORI checks, and recommendations. Mr. Hubert had verified and positive personnel references.

We learned this morning that Mr. Hubert was arrested for abducting and physically assaulting a seven year-old girl. According to reports, the girl was abducted from a private residence in Worcester, and neither that location nor the victim have any connection to Fay School.

Mr. Hubert was still in his probationary period of employment, and over the past seven weeks he did not have any unsupervised interactions with students in our summer programs. We have suspended Mr. Hubert indefinitely, and he will not be on campus pending a police investigation. As always, Fay will assist authorities who are investigating.

The safety of our students continues to be paramount. We will inform you if we have more information to share.

Sincerely,
Rob Gustavson
Head of School
